

Beautiful surface finish.

MAKAMID[®] based on Polyamide 6 for perfect and beautiful surface finish for parts with high wall thickness.

MAKALEN[®] for perfect PP surface finish without painting.

Beautiful surface finish

| Bezeichnung | Typ | Beschreibung |
|------------------------------|------------------|--|
| MAKALEN C 320 ST UV | PP copo modified | Very nice surface finish in connection with mould surface structure, very smooth haptic properties similar to a soft-touch painting. Application: vehicle interior |
| MAKAMID BV 270 RF 2 | PA 6 GF 10 | Very nice matt surface finish also for higher wall thickness parts, very good flowability. Application: knife handles, food conveyors |
| MAKAMID BV 270 RFB 21 | PA 6 GF 10 GK 5 | Dimensionally stable for long flow path very good surface and low warpage Application: vehicle interior, door frame |
| MAKAMID BV 270 RFB 22 | PA 6 GF 10 GK 10 | Dimension stable part with long flow length. Very good surface and low warpage Application: automotive interior, door frame |
| MAKAMID BV 270 RFB 24 | PA 6 GF 10 GK 20 | Dimension stable part with long flow length. Very good surface and low warpage |
| MAKAMID BV 270 RFB 53 | PA 6 GF 25 GK 15 | Dimension stable part with long flow length. High mechanical strength. Very good surface and low warpage |
